Business Time – http://eagleimaging.surge.sh/
Web application with a mobile responsive design for an aerial photography business using React framework, HTML & CSS.
Built With: React, HTML, CSS
GitHub

PokeCard API Project - http://pokecards.surge.sh/
Created with React, and the packages: "react-router-dom" & "Axios". This project was made for practice to understand how to pull data from APIs/databases, and the use of local storage.
Built With: React, HTML, CSS, Axios, React-Router-DOM
GitHub

EXPERIENCE:

V School, Vineyard UT - Full Stack Internship
September 2019 - Current
- Assist 20+ students with all assigned course work / personal projects
- Keep track of student progress as well as conduct biweekly technical challenges with each student
- Act as first resource of help for students, to reteach a subject or help walk them through their code/functionality of their code.

Accomplishments: Graduated from V School and was hired as TA

Groviv, Vineyard UT - Production Assistant
September 2018 - May 2019
- Built and maintained Controlled Agricultural Environments by using and operating various power tools and lifts.
- Improved product functionality by working collaboratively with a team of 8 to problem solve pain points, which lead to moving from a part-time temporary position to a full-time position.
- Assembled 25% of the carts for the Controlled Agricultural Environments

Accomplishments: Started in the assembly line and a week later got promoted to work on different projects at a Groviv owned Farm.

Iceberg, Riverton UT- Employee/Manager
October 2017 - September 2018
- Managed a team of 5, delegating tasks in a fast paced environment.
- Worked as a cleaner, cashier, cook, and making shakes.

Accomplishments: Promoted to manager in 6 months
